 - c. Records of military service for individuals discharged from the United States Army prior to November 1, 1912, and subsequent to December 31, 1959, and discharged from the United States Air Force subsequent to December 1963 were not destroyed. There was no significant loss of records of military service in the United States Navy, United States Marine Corps, and United States Coast Guard.

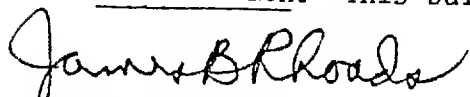

4. Procedures.

a. All Federal agencies are requested to suspend indefinitely disposal of any records that may be used to reconstitute records of military service in the United States Army for individuals discharged between November 1, 1912, and December 31, 1959, and in the United States Air Force between September 18, 1947, and December 31, 1963. These records include those containing information regarding dates of service, physical injuries, and mental impairment.
